**Listen to Him**  
On this second Sunday of Lent, we hear the story of the Transfiguration. It is an account of a significant spiritual experience for the disciples. We can recall in our lives times when we received a new spiritual insight, moments when we can know Jesus in a more profound way. These moments change us, they are powerful and can sustain us in difficult times. During Lent we are invited into a new way of seeing. As our world faces enormous environmental challenges, faith communities have a huge role to play in protecting God's creation for generations to come. The roots of the environmental crisis are deeply spiritual, for we have become disconnected from nature and forgotten how deeply interconnected everything is. This calls for a deep conversion, a reconnection, to be filled again with a childlike sense of awe and wonder where our relationship with the natural world is concerned. This Lent, let us spend more time in nature, being aware of God's presence in every created thing. Let us stand awestruck before the beauty of the world.

*"The entire material universe speaks of God's love.....  
Soil, water, mountains: everything is a caress of God  
From panoramic vistas to the tiniest living form,  
nature is a constant source of wonder and awe. It is also a continuing revelation of the divine. Alongside revelation is sacred Scripture, there is a divine manifestation in the blaze of the sun and the fall of night"*

*Laudato Si*
